MOU S.A will collaborate with ATC for the project 'Upgrading the e-learning system processes'

Following a successful bidding process on the "Upgrading the e-learning system processes" project, the Management Organisation Unit Of Development Programmes (MOU S.A) will once again entrust Athens Technology Center (ATC) to upgrade its Integrated Learning Management System.

With over than 15 years of successful cooperation, Athens Technology Center (ATC) will help the [Management Organisation Unit Of Development Programmes \(MOU S.A\)](#) to upgrade its e-learning system processes, with an overall goal of upgrading its Integrated Learning Management System. This cooperation has a significant impact on the achievement of MOU's mission to support Public Administration in the management of development programs, especially to those that are co-financed by the European Union, covering needs of skilled human resources, know-how, methods and processes, information systems and modern infrastructure.

This project will upgrade MOU's both asynchronous and synchronous learning systems provided through SABA software, as well as upgrade existing and provide new e-learning authoring tools (Lectora Inspire, Adobe Captivate, Articulate Storyline and Articulate Studio). In addition, ATC will supply MOU with video creation software (Adobe Presenter and iSpring). ATC will also be responsible for providing upgraded equipment and services for the modernization of MOU's e-learning classroom operation, as well as for the creation of an Authoring Lab.

Athens Technology Center (ATC) designs, develops and supports leading industry agnostic solutions for content management and content marketing. In cooperation with HCM industry leaders like Saba, Oracle, Microsoft and Trivantis, ATC provides on premise and cloud-based solutions and services for Learning, Recruitment, Certification Management, Talent Management, Virtual Classroom and Collaboration as well as professional services, like custom course development and integration with third party platforms including HRMS, LMS and Virtual Classroom, Intranets, Web portals and more.
